

It is through donations from private and business contributors that **Niagara Falls Rowing Club** is able to expand its resources and buy new rowing equipment. With these expansions we are able to serve our members and the community with an ever growing and improving club and programs. If you have the means to support our club with any level of cash or in-kind contribution, please contact us at niagarafallsrowing@gmail.com.

In 2015, due to the explosive growth of our membership, we undertook our most ambitious expansion project yet. We executed our expansion plan of moving from our original outdoor start up location, on private property, to our new location in George Bukator Park. This involved the construction of a new boathouse plus the addition of new training and racing equipment. This expansion project has required an investment of over \$130,000. Without the generosity of our 2015 donors this wouldn't have been possible. Your continued support is needed to keep the momentum of our expansion plan going in 2016.
